## Part A: Pupil premium strategy plan

### Statement of intent

It is important to consider the context of our school and the consequent challenges our families face when deciding how to allocate our pupil premium funding whilst also using the EEF research to inform our judgements. There are a range of barriers that prevent disadvantaged children making similar progress or attainment to others such as weak language and communications skills, limited parental support, attendance and punctuality issues and having fewer experiences than others. It is imperative that we ensure all children have access to a high-quality curriculum that not only gives them knowledge and skills to become confident learners but also motivates them to become passionate about learning. Teachers need to be acutely aware of the strengths and weaknesses across the school and therefore we will ensure that all teaching staff are involved in the analysis of data and identifying next steps through systems such as regular RAG meetings.

### Principles

- We will ensure that effective teaching, learning, and assessment meets the needs of all pupils through the rigorous analysis of data (RAG meetings) as well as through the delivery of high quality CPD for our staff.
- Through regular and timely Year Group RAG meetings and teaching and learning systems class teachers and Heads of faculty will identify intervention and support for individual pupils.
- Alongside academic support, we will ensure that those pupils who have social, emotional, and mental health needs will access high quality provision from appropriately trained adults.
- Through our broad and balanced curriculum, we aim to develop the whole child: intellectually, physically, emotionally and socially. We will provide opportunities through a wide range of activities, both in and beyond the classroom.
- Our progressive curriculum is based on a rich accumulation of knowledge, skills, concepts and attributes that aim to contribute towards success for all pupils.
- Reading is threaded throughout our curriculum and is central to ensuring our children can access a challenging and inspiring curriculum.
- We also recognise that not all pupils who are socially disadvantaged are registered or qualify for Free School Meals. We reserve the right to allocate the Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged.

## Demography and School Context

Serlby Park is an all-age school with a primary phase and a secondary phase. It is a larger than average Primary School. It is important to understand the context of the school and the challenges faced by families of pupils attending Serlby Park Academy. It is these factors, in addition to a research-based response with which the Pupil Premium Strategy Plan has been devised.

The map below displays the 'Lower Super Output Areas' (LSOA) which surround the school, and they are colour coded according to which national decile they belong to: decile 1 being the most deprived and decile 10 being the least deprived.

We serve an area of high deprivation, with the index of multiple deprivation being in decile 2, income deprivation affecting children is at 2.8 and education and skills is at 2.3. The LSOA in which the school is located is ranked as 5626<sup>th</sup> out of 32,844 in terms of deprivation. The percentage of pupils supported by the pupil premium funding at Serlby Park Academy (Secondary Phase) is above average, currently at 44.1% compared to 24.6% nationally.

Serlby Park Academy is committed to ensuring our socially disadvantaged students have their pastoral, social and academic needs met within a caring and nurturing environment. We wish to develop a love for learning that they will continue to build on throughout their life, raising aspirations and allowing the children to realise and reach their potential. Through well-planned use of the Pupil Premium Grant funding, gaps will be narrowed with pupils learning being accelerated and will be at least equal to their peers. This will ensure that our disadvantaged pupils receive the highest quality of education to enable them to become active, socially responsible citizens of the future. We recognise that disadvantaged children can face a wide range of barriers which may impact on their learning.

**Our ultimate objectives are to:**

- Remove barriers to learning created by poverty, family circumstance and background.
- Narrow the attainment gaps between disadvantaged pupils and their non-disadvantaged counterparts both within school and nationally.
- Ensure ALL pupils can read fluently and with good understanding to enable them to access the breadth of the curriculum.
- Develop pupils' confidence in their own abilities so that they can communicate effectively in a wide range of contexts.
- Enable pupils to look after their social and emotional wellbeing and to develop resilience.
- Ensure all pupils access a wide range of opportunities to develop their knowledge and understanding of the world.
- Increase access to before and after school clubs, trips and residential visits.
- Increase attendance and punctuality

Quality first teaching, targeted interventions that strengthen both academic achievement and social skills will '***support our pupils in being the best that they can be.***'

This list is not exhaustive and will be adapted when needed to ensure continual support of all our disadvantage pupils. This has been developed alongside the Education Endowment Foundation guide and their pupil premium toolkit.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge																					
1	<b>Social, emotional and mental health</b> Pupils in distress find it hard to self-regulate which impacts on learning. As within our school catchment area there are regions suffering from high levels of deprivation we acknowledge that following on from the pandemic and the current economic situation that more children are suffering from social, emotional and mental health issues.																					
2	<b>Literacy and Reading levels</b> Within the Y7 and Y8 cohort, following GL assessment testing approximately 25% of students are below average in reading levels.																					
3	<b>Academic progress</b> Pupils make less progress than other pupils in their cohort and pupils nationally. <table><tr><td></td><td>2019</td><td>2020</td><td>2021</td><td>2022</td><td>2023</td><td>2024</td></tr><tr><td>PP</td><td>+0.15</td><td>+0.33</td><td>+0.07</td><td>-0.22</td><td>-1.68</td><td>-0.8</td></tr><tr><td>Non PP</td><td>+0.53</td><td>+0.81</td><td>+0.86</td><td>+0.33</td><td>-0.56</td><td>+0.06</td></tr></table> Using strategic seating plans, collaborative learning, random name generators, live marking and other teaching and learning strategies we continue to have our PP students as a constant focus during our lessons with the aim of closing the progress gap.		2019	2020	2021	2022	2023	2024	PP	+0.15	+0.33	+0.07	-0.22	-1.68	-0.8	Non PP	+0.53	+0.81	+0.86	+0.33	-0.56	+0.06
	2019	2020	2021	2022	2023	2024																
PP	+0.15	+0.33	+0.07	-0.22	-1.68	-0.8																
Non PP	+0.53	+0.81	+0.86	+0.33	-0.56	+0.06																
4	<b>Attendance</b> Persistent absence rates are higher on average than those of our non-disadvantaged pupils. Absence has a direct link on the academic and social progress of these students.																					
5	<b>Wider opportunities / Cultural Capital</b> Pupils do not visit places of interest out of school or have the opportunity to perform. This has an impact on their knowledge and understanding of the world. We intend to financially support our PP students when excursions are planned to ensure they have the same opportunities as our Non-PP students. Transportation home following afterschool activities are also provided to ensure all students are able to participate.																					

6	<p><b>Low aspirations</b></p> <p>Linked with levels of self-esteem, disadvantaged students have significantly lower expectations for their futures than their counterparts. High quality careers guidance is in place to reduce the possibility of students becoming NEET but as importantly that they understand what is available to them as their next steps.</p>

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
The gap between disadvantaged pupils and the national average for non-disadvantaged pupils is reduced.	The Progress 8 achievement gap between disadvantaged pupils and non-disadvantaged pupils is closing and moving towards the national average for non-disadvantaged pupils.
Disadvantaged pupils are supported in their career plan and with their mental health to ensure that aspirations are raised and self-esteem is high.	<p>Destination data shows all pupils are on appropriate progression pathways.</p> <p>Ambitious curriculum is in place that enables all to access the full range of opportunities post 16.</p> <p>FTE exclusion data is reduced and in line with non-pupil premium peers.</p> <p>A robust EPC curriculum is in place that is accessed by all pupil premium pupils through lessons, form time and assemblies. This will be evidenced through quality assurance activities, book scrutiny and student voice data.</p>
Improved reading comprehension among disadvantaged pupils across Key Stage 3. To include improved reading ages for targeted cohorts in Years 7,8 and 9.	<p>By the end of 2024/25, students that are disadvantaged to have reading ages that are at their chronological age by the end of the academic year they are in.</p> <p>Data supported by GL assessments twice per year and from Accelerated reader.</p>
Attendance for disadvantaged pupils improves and the gap reduces with non-disadvantaged pupils	<p>Attendance rates for disadvantaged pupils are increasing year on year and are broadly in line with all pupils. Sustained high attendance from 2024/25 will be demonstrated by:</p> <ul style="list-style-type: none"> <li>- the overall attendance for all pupils being in-line with, or greater than, the national average for attendance and the attendance gap between disadvantaged and non-disadvantaged pupils will be significantly reduced so there is little difference between the average attendance</li> <li>- the percentage of pupils who are persistently absent is reduced to below the national average for persistent absenteeism and the figure among disadvantaged pupils is reduced so that there is little difference from non-disadvantaged pupils</li> </ul>

To achieve and sustain improved wellbeing for all pupils, including those that are disadvantaged.

Student voice to show general improvement in how much students enjoy school.  
Community engagement to increase with parents attending more school events.  
Enrichment opportunities take up to increase – especially for disadvantaged students.

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

### Teaching (for example, CPD, recruitment and retention)

**Budgeted cost: £77,602**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Staff bespoke CPD to support the development of quality first teaching	<p>The EEF state that “Good teaching is the most important lever schools have to improve outcomes for disadvantaged pupils” Weekly CPD has a focus on ensuring that staff are up to date with latest developments and new initiatives.</p> <p>Weekly CPD for all staff to further develop the high quality teaching and learning across the Academy. Rigorous QA cycle in place which monitors the quality of education via learning walks, work scrutiny and pupil voice.</p>	2, 3
<p>Delta Director support: English, maths, Science, History, MFL and Computing</p> <ul style="list-style-type: none"> <li>• Progress and attainment improvement focus for identified students</li> <li>• Support for curriculum leaders</li> <li>• 121/221/small group interventions</li> <li>• Cross-Trust analysis of examination results and performance (including question level analysis)</li> <li>• Cross-Trust analysis and sharing of good practice/strategies</li> </ul>	<p>Delta subject directors will work with targeted pupils to support their learning.</p> <p><a href="https://educationendowmentfoundation.org.uk">Small group tuition   EEF (educationendowmentfoundation.org.uk)</a></p>	2, 3

<p>Implementing the Delta Learning Principles into all lessons to ensure progress for all students</p>	<p>A consistent format of lesson applied across a curriculum creates a standardised approach for all staff and students. Students know that the expectations in all lessons are the same.</p> <p>A recall activity at the beginning of a lesson encourages the long term memory to be embedded with previous knowledge. A section to combat any previous misconceptions from the previous lesson allows for reflection and correction. At the end of a lesson a session to demonstrate the learning and understanding from the lesson in which a teacher can respond to.</p> <p>Feedback and live marking strategies to be delivered in CPD sessions to improve the feedback loop. Immediate feedback will be encouraged, supporting student progress.</p> <p><a href="https://www.educationendowmentfoundation.org.uk/feedback/">Feedback   EEF (educationendowmentfoundation.org.uk)</a></p> <p><a href="https://www.educationendowmentfoundation.org.uk/feedback-approaches-and-educational-attainment-in-children-and-young-people/">Feedback approaches and educational attainment in children and...   EEF (educationendowmentfoundation.org.uk)</a></p>	<p>2, 3</p>
<p>A well sequenced curriculum which fully addresses gaps in knowledge and understanding through recall and retention practice.</p>	<p>Full coverage of the national curriculum means that all pupils get a comprehensive coverage of all subject areas. Knowledge recall used at the start of each lesson to improve retention. The EEF state “to be able to retrieve, use, and apply knowledge in the long term, it is highly effective to practice retrieving, using, and applying knowledge during learning”</p>	<p>3</p>

## Targeted academic support (for example, tutoring, one-to-one support structured interventions)
